OBJECTIVE

Self driven computer science graduate with multiple years of experience seeking to apply my knowledge as a software engineer.

EXPERIENCE

CLEARLINK | SOFTWARE ENGINEER / FRONT-END DEVELOPER
Jan 2018 – Current | Salt Lake City, UT
- Received a promotion to Software Engineer.
- Worked on a CMS using Gatsby + Contentful.
- Created branded marketing websites using PHP, Handlebars, SCSS, etc.
- Mentored other developers.

CALLDRIP | SOFTWARE ENGINEER
July 2017 - Jan 2018 | Farmington, UT
- Worked on a lead generation web application using PHP, Javascript, MySQL, git, Bootstrap and Google Cloud Platform.

HILL AIR FORCE BASE | SOFTWARE ENGINEERING INTERN
May 2016 - July 2017 | Layton, UT
- System design for the f-16 fighter jet.
- Performed system data analysis with self written software.
- Maintained a secret security clearance.

WEBER STATE UNIVERSITY | SOFTWARE DEVELOPMENT INTERN
Dec 2015 – May 2016 | Ogden, UT
- Full stack developer working on Weber State's test taking software.
- Provided end user support.

PROJECTS

VUER | PERSONAL
I wanted to learn Vue so I created a GitHub profile viewing app using Vue, Charts.js, Bulma, and Zeit. https://vuer.now.sh/

DYNAMIC NUMBERS | CALLDRIP
Created a script to dynamically swap phone numbers on partner websites for precise tracking of each visitor to the site using vanilla JavaScript and PHP.

VOLUNTEER

EAGLE SCOUT PROJECT | CHILDREN'S JUSTICE CENTER
March 2011 | Ogden, UT
- Gathered donations from local businesses.
- Cleaned the yard and refurbished the property.

ENVIRONMENTAL AMBASSADOR | WEBER STATE UNIVERSITY
August 2016 | Ogden, UT
- Planted trees and cleaned the property at the Ogden Nature Center.
- Participated in planning meetings about ways to improve our community and promoted environmentally friendly practices.
